Computer languages (basic level)

MySQL | Java Script | JSON | C | HTML5 | CSS | XML | XSD | DTD

Computer languages (independent usage and learning)

Python | PHP

Basic Service Management

DNS | FTP | SSH | Windows AD | Samba | DHCP | Wordpress | Percona | Telnet | Correo | MongoDB | Apache | XAMPP | PhpMyAdmin | HTTP | firewall and acl

COMMUNICATION AND INTERPERSON- AL SKILLS

Good teamwork skills

The high school in which I studied focused on teaching us teamwork skills and learn to use and find tools to develop our work, at that stage of my life I learned to communicate assertively to solve problems, to work in a group, to value the strengths and weaknesses of each member and thus work efficiently while also reinforcing the weaknesses of the team.

I also want to highlight that my family ties with teachers has allowed me to learn some learning and teaching techniques, according to my experience these skills are very useful when working in a group.

Below I leave the link to a video in which you can see some of the alternative pedagogical techniques used by the Sunsi Mora high school.

The video is in catalan language.
